

Everlasting Hardwoods furniture is made from Ipé – one of the most beautiful and durable woods available for outdoor use. Its natural rich color, fine grain and smooth touch are aesthetically pleasing. Its natural resistance to decay and insect pests make it even more desirable for outdoor use.

Each piece of Everlasting Hardwoods furniture is hand selected to ensure freedom from imperfections. Everlasting Hardwood's stainless steel fasteners will not rust nor corrode like other fasteners. The polished stainless steel enhances the beauty of each piece.

No chemical preservatives are needed to maintain the integrity of Everlasting Hardwood Furniture. You may, if desired, occasionally apply a penetrating oil to maintain the rich natural color; or you may let it weather naturally to a warm silver-grey patina.
